

Determined to Succeed

Determined to Succeed, the Scottish Executive's strategy for enterprise in education, aims to help Scotland's young people develop self-confidence, self-reliance and ambition to achieve their goals - in work and in life.

At Govan High we are determined to ensure all pupils have a 'can do' attitude through bringing enterprise education and employability skills together to ensure a greater chance of a successful life beyond school and generate energy, enthusiasm and creativity in both our pupils and our teachers.

As a result of our continuing endeavours, in this year's Glasgow Education Awards, we have won the highest awards in all areas. We achieved a **Diamond Award** for our achievements in enterprise in education and working along with our partners in the learning establishments within Govan Learning Community, we were awarded the **New Learning Community Award** and the **New Learning Community Business Engagement Award**.

We are very proud of our achievements in this area and look forward to continuing to provide a variety of opportunities to ensure our children achieve their potential.

Some examples of Determined to Succeeds events which we have held over the past year are our Christmas Coffee Morning, S3 Business Week, Fashion Extravaganza, Annual Talent Show, Financial Education DVD as well as student exchanges to a variety of European countries.
