

Fashion Extravaganza

In April Govan High participated in our 'Fashion Extravaganza', a Govan Learning Community Determined to Succeed event. This event encouraged students to produce an item of clothing which would display learning which had been undertaken within subject areas. The activity saw teams of students working together, working on skills such as communication, presentation and working together as well as revising subject learning. Items included t-shirts displaying physics formulae, mathematical shapes, Chinese language and Scottish history, to name a few. The students presented their findings to judges from our local business links namely Pearce Institute, At Work Scotland and Spruce Carpets. The finale of the event saw teams from all over the learning community including: Copeland primary, Drumoyne primary; Elderpark primary, Greenfield primary, Hill's Trust primary, Broomloan road Nursery and the Govan Family Learning Centre. All displaying their products on the catwalk at Govan High. The event was a tremendous success with a capacity audience filling the hall.

The photograph shows 'Tartan Army' one of the two winning teams from the competition.
