

PARENTS IN PARTNERSHIP

Family Learning Event
Higher PE Presentation

AIMS:

- To make parents and carers aware of resources that their child can access at home.
- To foster positive relationships between parents, pupils and school.

DESCRIPTION:

The Higher Physical Education (PE) Parent Partnership presentation night was an opportunity for parents to get an overview of the course as well as guided to some helpful resources. The presentation was delivered 2 weeks before the Higher PE prelim to help support our pupils in the lead up to the exam. The presentation covered the breakdown of marks in both the practical and theoretical parts of the course and parents were directed to key websites and booklets that will support their child to attain the best possible grade.

Evidence of impact :

"The presentation was very useful and gave me strategies to help my son at home"

"I am far more aware of how to access resources "

"I feel more confident helping my daughter with her upcoming prelim"
