

PARENTS IN PARTNERSHIP

Family Learning Event
Science

AIMS:

- To remotely show parents around the Science lab.
- To demonstrate an experiment that pupils and parents can learn at home.

DESCRIPTION:

We did a Teams Call from 4.30-5.30 to show parents around the lab and the equipment we use. The session involved demonstrations of experiments including fire hands and mini fireworks. Pupils were sent home with experiment kits, and together we explored matter (solid, liquid and gas) and made "oobleck."

Feedback from parents :

- Everyone on the call was supported by Dad/Mum.
- 100% of parents said it was easy to access.
- 100% of parents said it was very interesting and engaging.
- 100% of parents enjoyed the practical element.
- 100% of parents said they had enough notice for the session, and would take part in future events and liked the timing.
